

A MATTER OF LIFE OR DEATH

Mechanisms, Models and Therapeutic Opportunities

Bergamo, Italy
12–14 February 2020

www.eacr.org/conference/lifeordeath2020

The conference will cover recent and exciting developments in the field of cancer research that are crucial to our understanding of the multifaceted role of cell death in tumour initiation, progression and therapy response.

Topics

- Basic mechanisms of cell death, e.g. apoptosis, necroptosis, ferroptosis, and autophagy
- Senescence
- Metabolic reprogramming and therapeutic targeting
- Cancer cell plasticity and resistance to cancer therapies
- Tumour immunology and microbiota
- Therapy-induced immune activation
- New combination strategies
- Immunotherapy - Opportunities & Challenges

KEY DEADLINES

-  Abstract submission
22 November 2019
-  Bursary application
22 November 2019
-  Registration
08 January 2020

Confirmed Speakers

Patrizia Agostinis, Belgium
René Bernards, Netherlands
Peter de Keizer, Netherlands
Marco Demaria, Netherlands
Sarah-Maria Fendt, Belgium
Silvia Formenti, USA
Simone Fulda, Germany
Verena Jendrossek, Germany
Dagmar Kulms, Germany

Marion MacFarlane, UK
Daniel Murphy, UK
Clemens Schmitt, Germany
Almut Schulze, Germany
Manuel Serrano, Spain
Katja Simon, UK
Brent Stockwell, USA
Sharon Tooze, UK
David Wallach, Israel

Part of the **EACR Conference Series**

Organised by the European
Association for Cancer Research
